

Storage Center SC Series Administration and Management

In association with : **DELL**EMC

Overview

This 4 day instructor-led course includes a combination of administration, management, and advanced administration coursework. The course concentrates on utilizing Storage Manager to educate Administrators on how to perform key administrative tasks for Storage Center and effectively manage all tools associated with Storage Center operations. Dell EMC Education Services has partnered with the Storage Networking Industry Association, SNIA, and this course meets one of the SNIA Certified Storage Networking Expert (SCSN-E) Certification Partner requirements.

Audience

This course is intended for Storage Administrators and IT professionals who manage Dell EMC SC Series Storage arrays.

Prerequisite Knowledge/Skills

Students should have previous SAN knowledge and have at least one year of networking and server experience.

Course Objectives

By the end of the course, you will be able to:

- Identify the physical hardware components of the Dell Storage Center
- Describe various cabling scenarios of the Dell Storage Center
- Install and configure Dell Storage Manager
